## I Gabatarwa

A cikin tsarin ayukanshi, Puroje mai kula da bincike - bincike don bunkasa ayukan noma a cikin fadamu na cikin yankin Sahel (EDOS) yayi niyar taimakama mazamna karkara ta hanyar daman kula da dam a cikin garuruwan: Burdi (Illela), Eduk (Cintabaraden), Gidan bado (Buza) da Jaja(Tawa)

## II Gurin horo

Gurin da ake nema a cimma ta hanyar horo shine bada dama ga masu ma akaitan dam domin su samu masaniya ayukansu na gyara da kula dam yaw da kullum misali:

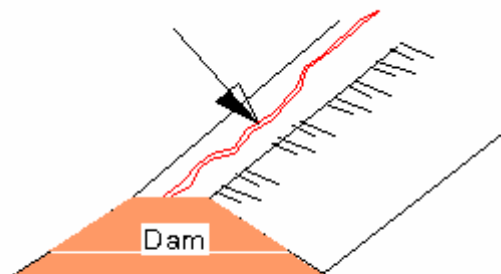

-  Kishin gyabgu
-  Kula da hitar duwatsu da ga dam
-  Sassaben kananan itace
-  gyaran wuri ginnan
-  gyaran wayoyinda da su ka katse na dam dasaouransu

## III Sakamako da ake jira

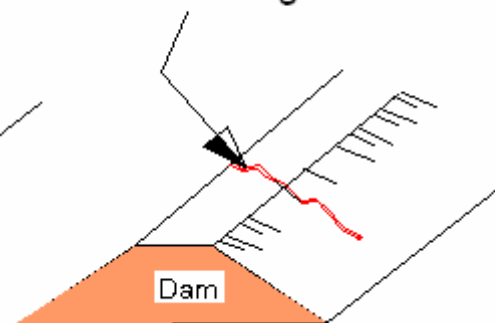

-  Muatane su gane da anfani kula da dam
-  Mazamnan horo su gane huso o in kare dam
-  Mazamnan horo su bada fasalin bisa ayyukar kare dam

## Matsaloli na dam

Tsaga mai tsawo bisa dam

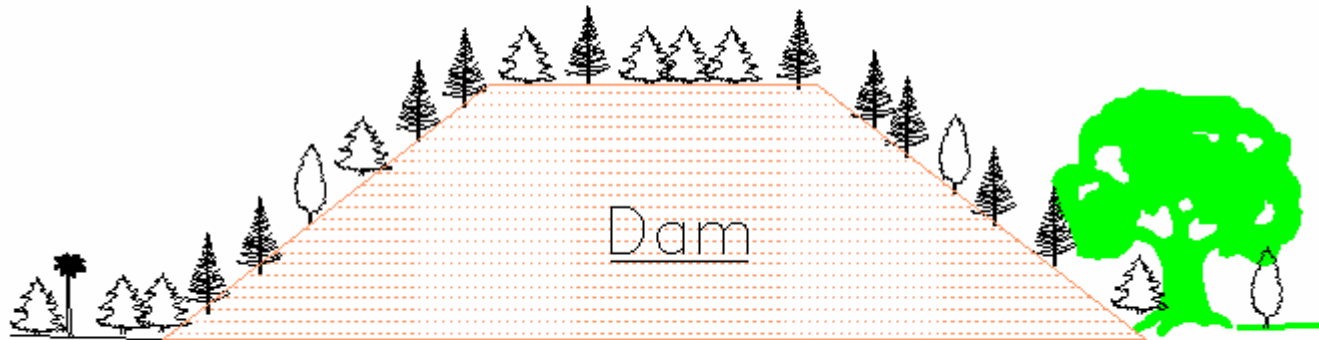

Tsaga bisa Fadin dam

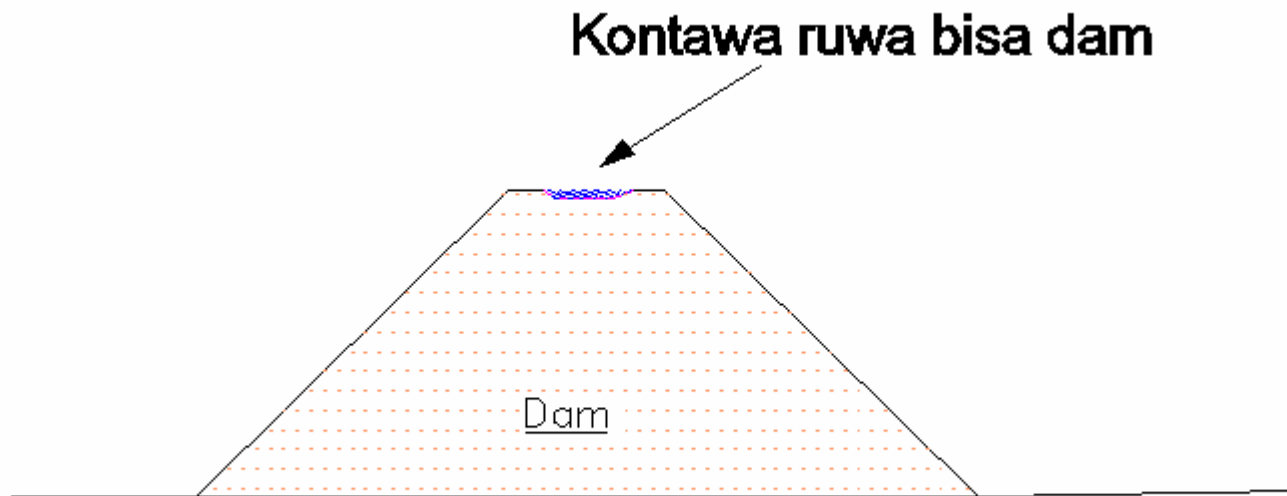

- Inda ke da tsaga, sai a kara fadinta, sannan a karkare, a jika da ruwa, a dabe da kyau da jangargari

## hutar itatuwa bisa dam

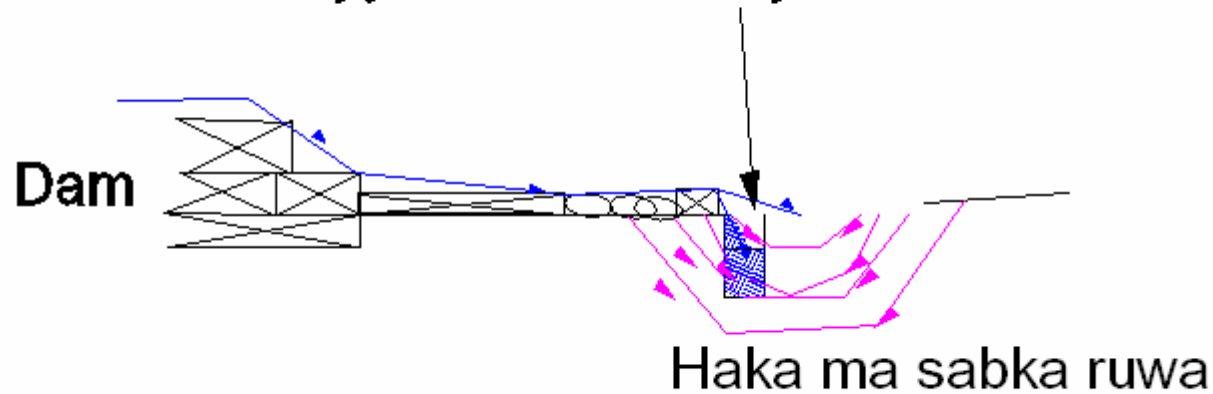

- A hidda itatuwa, a tsabtace saman dam da gehenshi fadin metir 10.
- Mayan itatuwa, wanda an kashe su sayunsu za su jayo matsala ga dam ana iya barinsu.

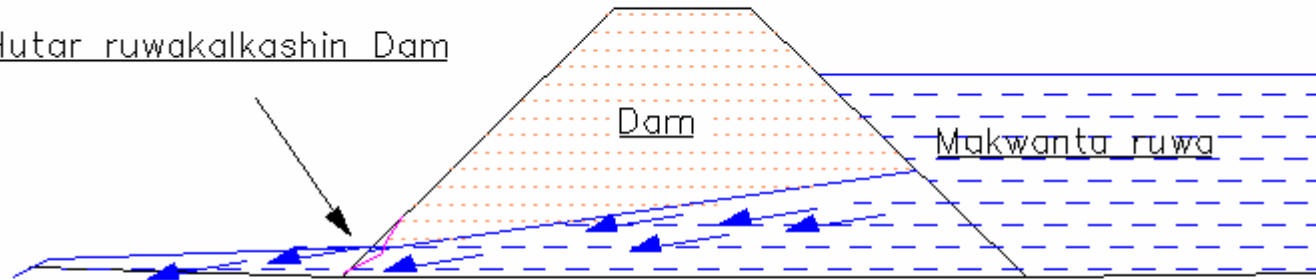

- Duk wurinda ya danfada a saman dam, sai a cike shi da jangargari, a jika da ruwa, kuma dabe shi da kyau.

## Gina rijiya kalkashin waya na kawo faduwar dam

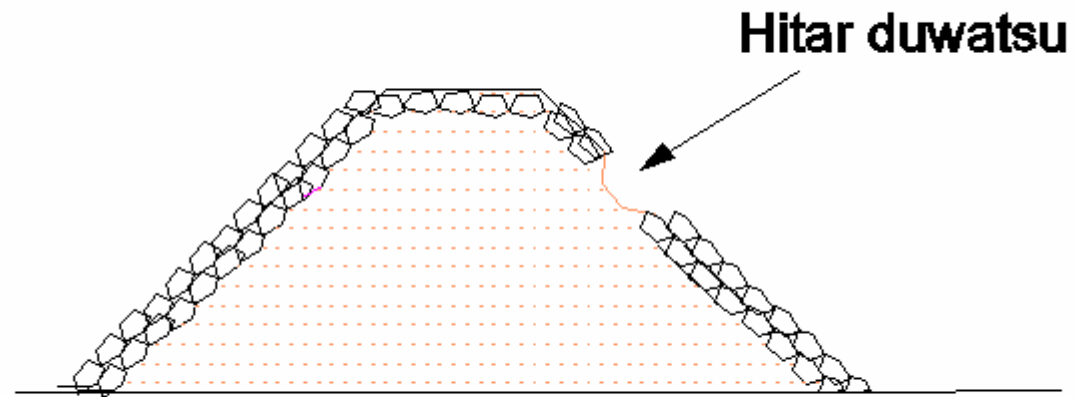

- A kiyaye gina rijiya karkashin mabiyar ruwa. A cike tsohin riyoji
- Idan an gano zaizayar wuri a ketaran mabiyar ruwa, ana iya dabe wuraren kuma a cike su da mayan duwatsu.

Hutar ruwakalkashin Dam

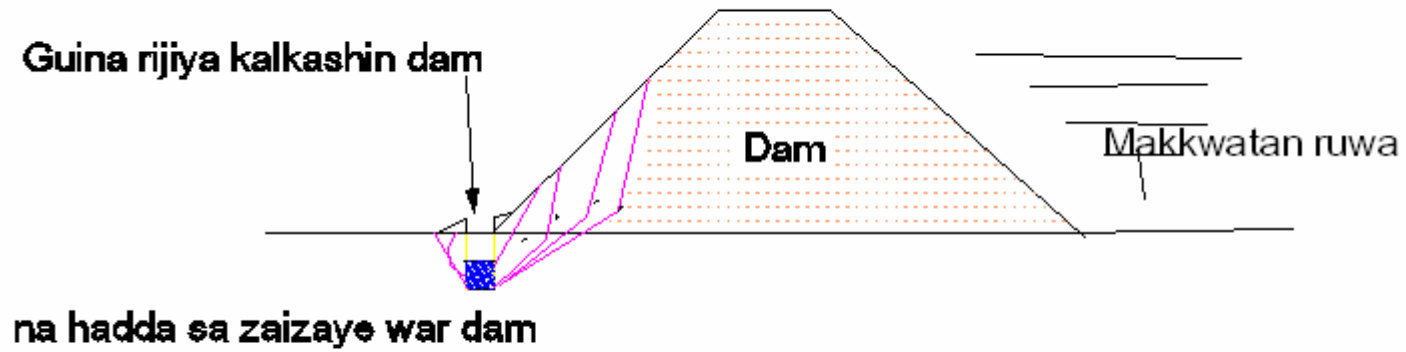

- Idan an gano ruwa maras kyau na huta daga kalkashin dam a sannar da mahukunta ko kuma ma' aikata mai kula da ginegine.

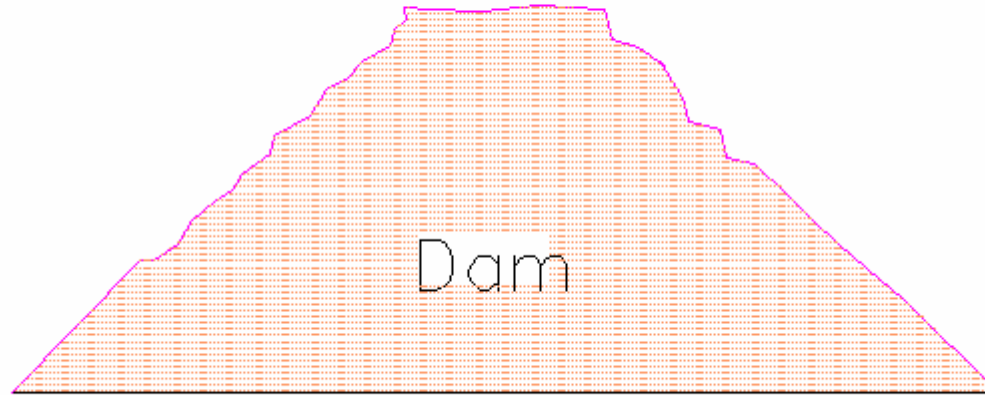

- Idan duwatsu na tsagar dam suka gushe, sai a karkare, a jika da ruwa, kuma a dabe da jangargari.

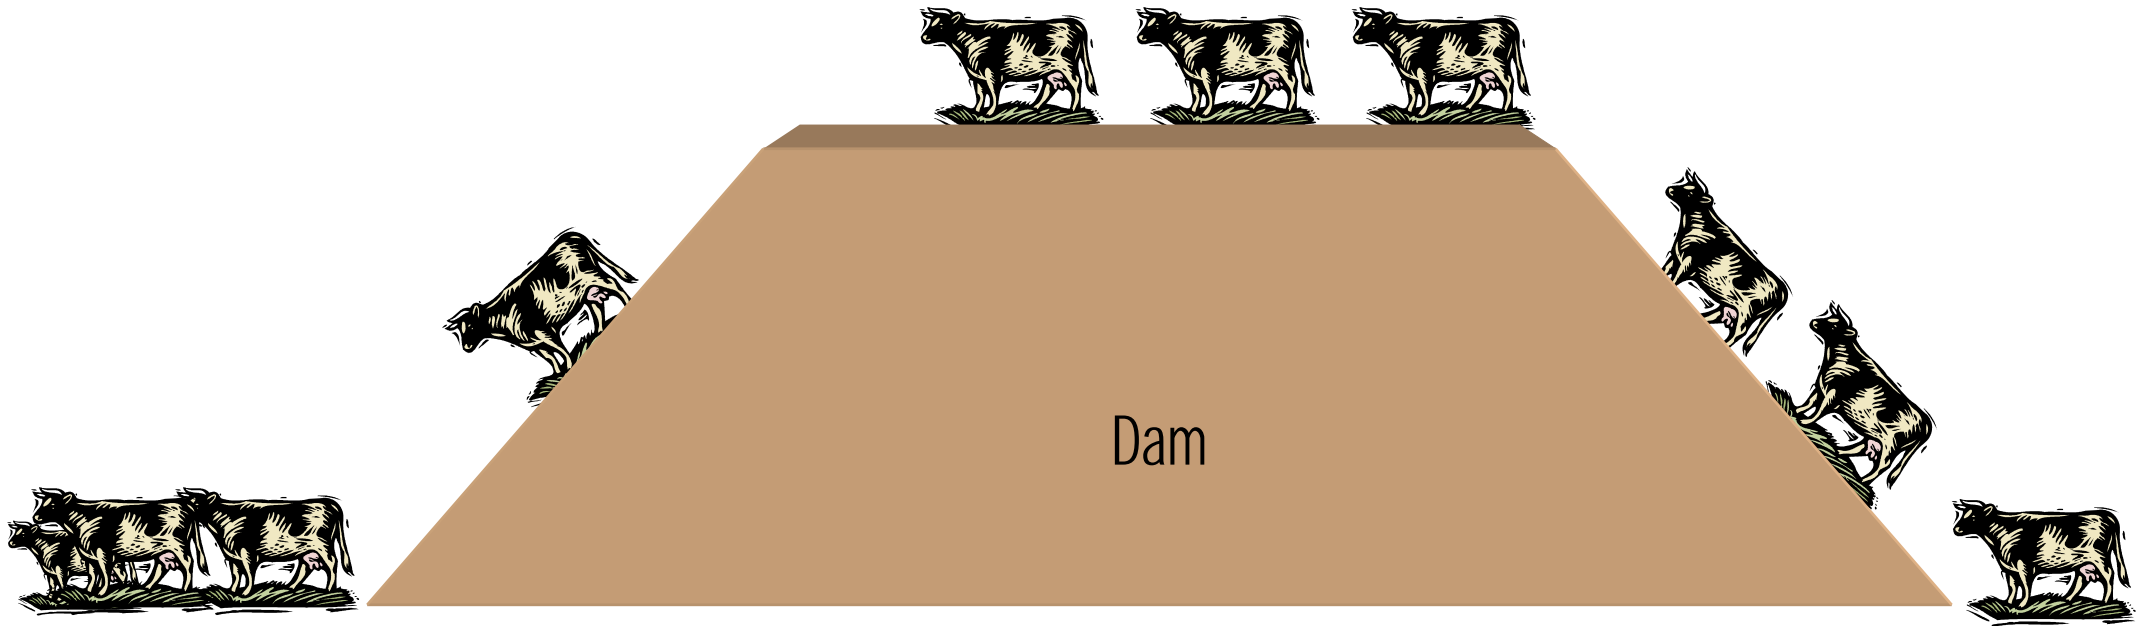

- A kiyaye gina rijiya kalkashin dam.
- A zan bunne tsohin rijiyoyin da ke karkashin dam da kusanshi

## Zaizayewar dam

- A tsabtace, a jika da ruwa, kuma a dabe wurinda ya zaizaye da jangargari
- A sake jera duwatsu

## Hawan bisashe bisa dam

- A kiyaye biyar bisashe saman dam yau da kullum
